SUMMARY

I am a web developer, specifically working on Front-end technologies, and also I know PHP, Python, Java, C, C++ and C# as side skills.

I like the algorithms and I was a good practical student at university, and I had some classes for new students at university (as T.A.).

These days I am working for my employee's website and I am making fun with Arduino, also I have some related idea that I should make them real.

SKILL

COMPUTER SCIENCE:

- Algorithm design, Database design, Design patterns and Object-oriented

TECHNICAL SKILL:

- **JavaScript** (and related libraries, e.g. VueJS, React, NodeJS, and etc.)
- JavaScript plugins (e.g. jQuery)
